

QazVortex

2026-05

mail@qazvortex.kz

■ About

Industrial vacuum cleaners

Assembled in Almaty. For daily cleaning on site and in plants.

QazVortex vacuums are built by TOO «Prima-N», Almaty Region. On the market since 1994.

■ Pricing

On 18 May 2026 we launched the QazVortex industrial vacuum assembly line. To mark the opening, 20% off the full catalog until 2026-06-20 (inclusive).

incl. VAT (16%)

Spec tables: the list column is price incl. VAT (16%); the promo column is the discounted price incl. VAT (20% off catalog net) while the offer runs.

QV-40

2026 update: revised cyclone and easier to move on site.

QazVortex QV-40 (Solo, Dual, Turbo): cyclonic industrial vacuum, 40 L drum, 220 V. Power 2400, 3000, or 3600 W by motor kit. Updated 2026 chassis vs the previous line.

🧹 What it picks up

- Fine dust: concrete, cement, filler, powder paint
- Chips: wood, metal
- Site waste: rubble, sawdust, shot, gravel, stones
- Non-flammable liquids and oils, wet sludge

⚙️ Filtration

- Two-stage cyclone
- Washable fine HEPA path
- Turbine cooling filter

📦 In the box

- Vacuum unit
- 360 mm floor head
- Crevice tool
- Wand
- 150 mm hose adapter
- 5 m suction hose
- Washable HEPA + turbine cooling filter

i Note

Factory may change specs or kit without notice.

SKU	Variant	W	Turb.	m ³ /h	kPa	Net	List price	Promo price
-----	---------	---	-------	-------------------	-----	-----	------------	-------------

QV-40-SOLO	Solo	2400	2	468	32.0	855 400 ₸	992 264 ₸ (incl. VAT 16%)	793 811 ₸ (incl. VAT 16%)
QV-40-DUAL	Dual	3000	2	468	32.0	866 400 ₸	1 005 024 ₸ (incl. VAT 16%)	804 019 ₸ (incl. VAT 16%)
QV-40-TURBO	Turbo	3600	3	468	32.0	899 200 ₸	1 043 072 ₸ (incl. VAT 16%)	834 458 ₸ (incl. VAT 16%)

QV-52

For heavy fine dust: with a grinder or after concrete floor grinding.

QazVortex QV-52 (Solo, Dual, Turbo): 220 V cyclonic vacuum, 52 L drum. Only QazVortex industrial model with two cyclones. Power 2400, 3000, or 3600 W.

For shops and sites with heavy dust every day. Big drum means fewer trips to empty.

Good for

- Construction and demolition clean-up
- Production floors and warehouses
- Wood and metal shops
- Large areas, lots of debris

What it picks up

Chips, sawdust, gravel, mixed site waste, non-flammable liquids.

52 L drum

- Less often stop to dump
- Steady suction on long shifts

Cyclone, no bags

- Most dirt drops before the fine filter
- Lower spend on consumables

HEPA path

- Up to 99.9 % filtration (see specs table)
- Protects turbines, less dust back in the hall

QV-52.4 frame

- Rounded corners, lower height for transport
- Stronger wheels and drum mounts

 **In the box**

- Vacuum unit
- 360 mm floor head
- Crevice tool
- Wand
- 150 mm hose adapter
- 5 m suction hose
- Washable HEPA + turbine cooling filter

i Note

Factory may change specs or kit without notice.

QV-52-TURBO	Turbo	3600	3	534	28.0	844 400 ₸	979 504 ₸ (incl. VAT 16%)	783 603 ₸ (incl. VAT 16%)

QV-60

60 L drum for long shifts: dry waste and sludge that is not explosive.

QazVortex QV-60 (Solo, Dual, Turbo): cyclonic vacuum, 60 L drum, 220 V. Power 2400, 3000, or 3600 W. Solo: 2×1200 W turbines; Turbo: three turbines.

60 L helps on long shifts in joinery, metal shops, and fit-out when you cannot run a central extractor.

🔧 What it picks up

- Fine dust: concrete, cement, filler, powder paint
- Chips and rubble: wood, metal, shot, gravel, stones
- Wet sludge, non-flammable liquids, oils, coolant

★ Points

- Cyclone + washable HEPA (H12) + turbine cooling filter
- Turbine overheat protection
- 60 L drum, four wheels, brake on one small wheel for parking on a slope
- Optional: 60 cm floor head and liquid drain kit (order separately)

⚙️ Filtration

- Two-stage cyclone
- Washable fine HEPA
- Turbine cooling filter

📦 In the box

- Vacuum unit
- 360 mm floor head
- Crevice tool
- Wand
- 150 mm hose adapter
- 5 m suction hose
- Washable HEPA + turbine cooling filter

QV-75

75 L drum for big floors: mixed waste and liquids that are not explosive.

QazVortex QV-75 (Solo, Dual, Turbo): industrial vacuum, 75 L drum, 220 V. For large floors with mixed waste, water, oils, swarf, and fine dust. Not for explosive atmospheres or ATEX duty.

75 L = fewer dump stops on production, warehouse, and site work.

🔧 What it picks up

- Mixed debris on big floor areas
- Water, non-flammable liquids, oils, sludge
- Sticky or paste-like waste
- Metal swarf, scale, shot, gravel, stones
- Fine dust: concrete, cement, gypsum, sand, coolant

★ Points

- Washable HEPA; spares on the regular parts list
- Solo: 2×1200 W turbines (2.4 kW nameplate); Dual and Turbo add power on the same layout
- Two vortex stages + HEPA; with factory HEPA, path targets particles above 0.3 µm (per datasheet)
- Turbine overheat protection
- Two nozzles, 5 m hose, wand, filters in the box
- Four wheels; brake on one small wheel
- Optional: 60 cm floor brush, liquid drain kit

⚙️ Filtration

- Two-stage vortex
- Washable fine HEPA
- Turbine cooling filter

QV-ACC-HOSE-PVC50

PVC reinforced hose (two PVC layers with spring-steel wire spiral), 50 mm bore. Length 1–15 m; also sold in rolls without end fittings.

PVC suction hose, 50 mm bore (two PVC layers, spring-steel wire spiral). Length 1–15 m. Rolls without fittings available.

For industrial vacuums, scrubbers, and sweepers: dust and grit on site and in plants.

End fittings

- Two stainless steel pipe ends
- Male or female to match your layout
- Standard: male–male
- Other pairing via sales; same price

QV-ACC-FILTER-KIT

Washable ultra-fine HEPA filter for industrial vacuums.

Large washable HEPA for QazVortex QV-40, QV-52, QV-60, QV-75.

Can replace common truck air-filter elements, e.g.:

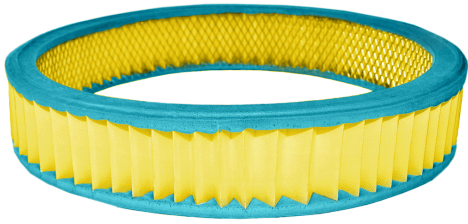

- ZIL-133 GYa, 645
- DF 6600

Care

- No high-pressure rinse
- No harsh chemicals
- Install only when fully dry after washing

 Not for explosion-proof vacuums

Net KZT	List price	Promo price
42 200 ₸	48 952 ₸ (incl. VAT 16%)	39 162 ₸ (incl. VAT 16%)

QV-ACC-TURBINE-COOL-FILTER

Turbine cooling filter for QazVortex 40 / 52 / 60 / 75 series vacuums.

Turbine cooling filter for QV-40, QV-52, QV-60, QV-75.

 Do not wash this filter.

 Size: 320 mm OD, 65 mm height.

Net KZT	List price	Promo price
13 000 ₸	15 080 ₸ (incl. VAT 16%)	12 064 ₸ (incl. VAT 16%)

QV-ACC-HOSE-ADAPTER-150

150 mm adapter between the hose and standard QazVortex tool fittings (Ø 50 mm).

150 mm tall adapter for connecting the industrial hose to the standard QazVortex tool interface.

- Overall height: 150 mm
- Tool-side diameter: 50 mm (matches QazVortex floor, crevice, and round brush fittings)

Not for use with explosion-proof vacuum configurations.

Net KZT	List price	Promo price
1 400 ₸	1 624 ₸ (incl. VAT 16%)	1 299 ₸ (incl. VAT 16%)

QV-ACC-CREVICE-UNIVERSAL

Standard crevice nozzle shipped with every QazVortex industrial vacuum (except explosion-proof builds).

Universal crevice tool for tight gaps, corners, and machine enclosures.

Ships in the factory accessory kit for every QazVortex industrial vacuum model in standard configuration (QV-40, QV-52, QV-60, QV-75). Not supplied with explosion-proof builds.

- Fits the standard QazVortex 50 mm tool interface

Net KZT	List price	Promo price
7 600 ₸	8 816 ₸ (incl. VAT 16%)	7 053 ₸ (incl. VAT 16%)

QV-ACC-FLOOR-HEAD-360

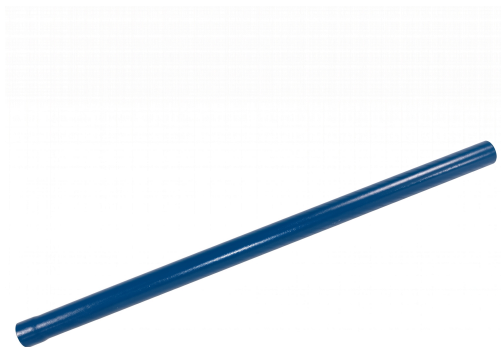

360 mm floor head for dry dust and bulk debris; 50 mm QazVortex mount.

Wide floor nozzle for dry dust and bulk debris on concrete, tile, and coated industrial floors.

- Working length: 360 mm
- Tool mount: 50 mm (QazVortex standard)

Compatible with all QazVortex industrial vacuums in standard configuration. Not for explosion-proof builds.

Net KZT	List price	Promo price
30 700 ₸	35 612 ₸ (incl. VAT 16%)	28 490 ₸ (incl. VAT 16%)

QV-ACC-WAND-EXTENSION-1M

1 m aluminum wand with powder coating and 50 mm QazVortex tool interface.

Lightweight extension wand for QazVortex industrial vacuums (QV-40, QV-52, QV-60, QV-75) in standard configuration.

- Length: 1000 mm (single section)
- Tube diameter: 50 mm
- Material: aluminum
- Finish: powder coating

Typical applications: concrete dust, water pick-up, gypsum, wood chips, oil mist, metal dust and swarf, sand, powder coatings, cutting fluid residue, cement dust, gravel.

On request: two 500 mm sections instead of one 1 m tube; custom lengths; male-female joint options — contact sales.

Not for explosion-proof vacuum configurations.

QV-ACC-FLOOR-HEAD-360-WATER

360 mm floor head for liquids and wet sludge; 50 mm QazVortex mount.

Wide floor nozzle for water, non-flammable liquids, and wet sludge on industrial floors.

- Working length: 360 mm
- Tool mount: 50 mm (QazVortex standard)

Compatible with all QazVortex industrial vacuums in standard configuration. Not for explosion-proof builds.

30 700 ₸	35 612 ₸ (incl. VAT 16%)	28 490 ₸ (incl. VAT 16%)

QV-ACC-TURBINE-1200W

Spare XWA 95 turbine for QazVortex Solo and Turbo motor kits (1200 W each).

Spare XWA 95 turbine, 1200 W.

 Used on QazVortex Solo and Turbo kits:

- QV-40, QV-52, QV-60, QV-75 – Solo (2×1200 W), Turbo (3×1200 W)

 Spare part. Warranty if installed by the vacuum maker.

 Not for explosion-proof vacuums.

QV-ACC-TURBINE-1500W

Spare XWA 95 turbine for QazVortex Dual motor kits (2×1500 W, 3000 W total).

Spare XWA 95 turbine, 1500 W.

 Dual kit (2×1500 W = 3000 W):

- QV-40 Dual, QV-52 Dual, QV-60 Dual, QV-75 Dual

 Spare part. Warranty if installed by the vacuum maker.

 Not for explosion-proof vacuums.
